## Smile Network

Smile Network International is a global non-profit, humanitarian organization based in Minneapolis that provides life-altering, reconstructive plastic surgeries and related healthcare services to impoverished children and young adults around the world. Every year thousands of children are born with facial deformities such as cleft lips and palates and suffer the humiliation and embarrassment of their disfigurement. Smile Network brings together medical and non-medical volunteers to facilitate humanitarian efforts that impart dignity and improve the quality of life for children whose needs would otherwise go unaddressed. **www.smilenetwork.org**

Together we can change the world  
...one bright, smiling face at a time!
